

## **Yukon Moves into Top Ten Most Attractive Jurisdictions for Mining Investment**

Toronto, ON / March 4, 2019 / Victoria Gold Corp. (TSX.V-VIT) (“Victoria” or the “Company”) is pleased to report that Yukon has ranked 9<sup>th</sup> place in the world for overall investment attractiveness as per the latest Annual Survey of Mining Companies released on February 28, 2019 by the Fraser Institute, an independent, non-partisan Canadian public policy think-tank.

This report presents the results of the Fraser Institute’s 2018 annual survey of mining and exploration companies. Survey responses have been tallied to rank provinces, states, and countries according to mineral endowment and public policy factors such as taxation and regulatory uncertainty.

The survey is available on the Fraser Institute website [here](#).

### **About the Dublin Gulch Property**

Victoria Gold's 100%-owned Dublin Gulch gold property is situated in central Yukon Territory, Canada, approximately 375 kilometers north of the capital city of Whitehorse, and approximately 85 kilometers from the town of Mayo. The Property is accessible by road year-round, and is located within Yukon Energy's electrical grid.

The Property covers an area of approximately 555 square kilometers, and is the site of the Company's Eagle Gold Deposit. The Eagle Gold Mine is under construction and is expected to be Yukon's next operating gold mine. The Eagle and Olive deposits, include Proven and Probable Reserves of 2.7 million ounces of gold from 123 million tonnes of ore with a grade of 0.67 grams of gold per tonne, as outlined in a National Instrument 43-101 feasibility study entitled Report for the Eagle Gold Project and dated October 26, 2016. The NI 43-101 Mineral Resource for the Eagle and Olive deposits has been estimated, as at December 5, 2018, to host 208 million tonnes averaging 0.66 grams of gold per tonne, containing 4.4 million ounces of gold in the "Measured and Indicated" category, inclusive of Proven and Probable Reserves, and a further 20 million tonnes averaging 0.64 grams of gold per tonne, containing 0.4 million ounces of gold in the "Inferred" category.

### **Cautionary Language and Forward-Looking Statements**

Neither the TSX Venture Exchange, nor its Regulation Services Provider accepts responsibility for the adequacy or accuracy of this release. This press release includes certain statements that may be deemed "forward-looking statements". All statements in this discussion, other than statements of historical facts, that address future exploration drilling, exploration activities, anticipated completion of mine construction, anticipated metal production, internal rate of return, estimated ore grades, commencement of production estimates and projected exploration and capital expenditures (including costs and other estimates upon which such projections are based) and events or developments that the Company expects, are forward-looking statements. Although the Company believes the expectations expressed in such

forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include metal prices, exploration successes, continued availability of capital and financing (including the flow-through financing outlined above), unfavourable weather conditions, delays in the delivery of materials to the mine site, and general economic, market or business conditions. Accordingly, readers should not place undue reliance on forward-looking statements.
